DECLARATION BY MS. DEBRA L. BURNS UNDER 37 CFR §1.8(b)(3)

Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313

Sir:

Under the provisions of 37 CFR §1.8(b)(3), I Debra L. Burns here declare and attest as follows:

1. I am the secretary to Marilyn M. Peterson and Michael S. Gzybowski.
2. On March 8, 2006 Ms. Peterson gave me the Response to Notification of Missing Requirements Under 35 U.S.C. §371 in the United States Designated/Elected Office (the "Response") for patent application serial no. 10/540,908.

3. The Response was prepared by Ms. Peterson and signed by Mr. Gzybowski.
4. Ms. Peterson signed the Certification under 37 1.8(a) and gave the documents to me for copying and for filling out the return receipt postcard after which I put the documents in the mail.
5. When I filled out the return receipt postcard I inadvertently listed the Declaration as including only 2 pages (which is typical, unless there are more than three inventors).
6. I maintain a "chron" file in which copies of all correspondences to the U.S. Patent Office are maintained. The copies are made just before the documents are put in the mail.
7. In checking the "chron" file for March 8, 2006, I attest that there is a copy of all three pages of the Declaration which were mailed with the Response on March 8, 2006.
8. Further, I distinctly remember that the Declaration included three pages, since there had been a lot of ongoing activity at that time to obtain the second signed declaration from the inventors (that included their citizenships).

That I further attest and declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of U.S. Patent Application Serial No. 10/540,908 or any patent issuing thereon.

Debra L. Burns
